

HOW TRUMP'S PROJECT 2025 WOULD IMPACT YOU

Donald Trump's Project 2025 threatens the basic freedoms – breathing clean air, drinking safe water, making a home in livable communities – that Americans hold dear. Trump wants to control our lives – for his benefit. It will be up to us to protect our families, friends and neighbors from the harm that Project 2025 would bring by electing leaders who stand for our freedoms.

Donald Trump's Project 2025 isn't simply a plan – it's a promise. It's Big Oil's playbook that looks out for the few – mainly Trump and his patrons – at the expense of the American people.

This shadow platform burst out into the open shortly after Donald Trump met with Big Oil CEOs, asking that they steer \$1 billion to his campaign. Donald Trump's Project 2025 is fueled by polluters who are orchestrating the demise of our climate – and our future.

Put simply, Trump and Project 2025 would put Americans' health and safety at risk.

MAKE THE POLLUTION THAT'S DRIVING EXTREME WEATHER EVEN WORSE. Allows Big Oil to increase the pollution that's making the weather so dangerously unpredictable and ravaging communities.

MAKE YOU PAY FOR WEATHER REPORTS. Jeopardizes our ability to prepare for extreme weather by turning weather reports into a subscription service.

MAKE YOUR ELECTRICITY BILLS HIGHER. Locks us into high electricity bills by sabotaging America's move to cleaner energy.

MAKE POWER OUTAGES THE NORM. Increases our vulnerability to power outages by holding onto a failing dirty energy grid instead of modernizing it.

MAKE DIRTY AIR AND UNSAFE WATER THE STANDARD. Robs Americans of their freedom to breathe clean air and drink safe water by essentially providing Big Oil a free pass to pollute.

We cannot let Donald Trump reverse our progress to fight climate change and protect communities.

Thanks to the climate and clean energy plan signed into law by the Biden-Harris administration, **more than 300,000** good-paying, family-sustaining clean energy jobs have been created for electricians, mechanics, construction workers, technicians and many others. The clean energy plan is the most transformative climate law in American history and yet, Trump's Project 2025 seeks to dismantle it.

As Donald Trump thinks about himself, he puts the world in peril.
